

Srijita Das

Computer Science Engineering Student | Python | OOP | DSA | SQL | Backend Development

✉ srijitadas254@gmail.com ☎ 9875663552 📍 Khardaha, West Bengal

Summary

Computer Science Engineering undergraduate with strong foundations in Python, Object-Oriented Programming, Data Structures and Algorithms, SQL, and Database Management. Experienced in developing Python-based applications using OOP and file handling concepts, with a strong interest in backend software development. Currently strengthening skills in backend development, and database-driven applications. Seeking a Trainee Software Engineer opportunity to apply problem-solving and software development skills in a product-focused environment.

Education

RCC Institute of Information Technology	Bachelor of Technology (B.Tech) • CGPA: 7.97 / 10
Computer Science and Engineering	Kolkata, West Bengal, India • 2023 – 2027 (Expected)

Projects

Student Management System	2026 – Present
• Developed a console-based Student Management System using Python and Object-Oriented Programming. • Implemented CRUD operations to add, view, update, search, and delete student records. • Used file handling for persistent storage of student data. • Applied classes, objects, methods, encapsulation, exception handling, and input validation. • Designed a menu-driven interface for efficient student record management.	

Technical Skills

➔ Python
Intermediate
Object-Oriented Programming, File Handling, Exception Handling, Functions, Data Structures, Problem Solving
●●●●○
➔ Database
Intermediate
SQL, MySQL, Joins, Aggregate Functions, GROUP BY, Subqueries, Database Management
●●●○○
➔ Object-Oriented Programming
Intermediate
Classes, Objects, Inheritance, Polymorphism, Encapsulation, Abstraction
●●●○○
➔ Data Structures & Algorithms
Beginner
Arrays, Strings, Searching, Sorting, Recursion, Problem Solving
●●○○○
➔ Tools
Intermediate
Git, GitHub, VS Code
●●●○○

Coursework

Computer Networks

Operating Systems

Programming for Problem Solving

DBMS

Software Engineering
